

IMPACDOR®

CLEAR-VALU®

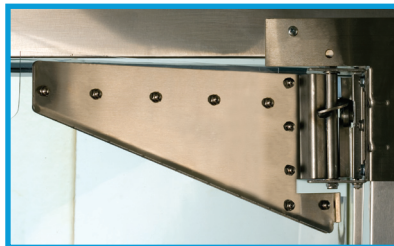

The Aleco Clear-Valu® ImpacDor® is the strip door alternative. Two crystal clear flexible PVC panels for walk-in coolers and freezers with a center overlap create an energy tight seal.

Clear-Valu® swinging doors are easy to install and easy to use. They open with minimum force and close automatically in seconds. The closing speed is fully adjustable and the polished stainless steel Clear-Valu® hinges are guaranteed not to rust or corrode. Crystal clear panels are available in both cooler and freezer formulation in .080" and .120" thickness. Panels are packaged flat, not rolled, to insure straight hanging for a tight seal. In addition, Clear-Valu® doors can be field adjusted and modified for a perfect fit. The complete Clear-Valu® door includes mounting hardware.

NEW! Improved Hinge Stainless steel easy- to-open hinges close automatically in seconds

Can be flush mounted
or in-jamb mounted

LIFETIME WARRANTY on Clear-Valu® Hinges
