INDUSTRIAL WORKPLACE SOLUTIONS

NEW! Mesh Material
Now Available

A Controlled Environment is a Safe Environment
SLIDING PARTITIONS

Safe/Vue® Sliding Partitions allow for maximum control over dust, noise, flying debris and other hazards in the industrial workplace. Essential for safety in welding shops, machine shops and assembly areas, **Safe/Vue® Sliding Partitions** help you create a safe and controlled environment.

Safe/Vue® Sliding Partitions are manufactured to your order specifications. Choose up to three colors for your partition. For example, specify a blue upper section, a clear mid-portion, and a yellow lower section. Choose a unit made entirely of Aztec Orange to create an effective welding shield, a unit made completely of clear PVC to provide maximum visibility or an all-opaque unit to obscure visibility. New mesh material lets fresh air in - keeps bugs out!

The Safe/Vue® suspension system allows for easy installation and utilization of the partition. Hang by threaded rod from your existing beam, simply attach to the beam itself or floor mount the entire partition. (Safe/Vue® Partitions meet Federal Standard 191)

SLIDING PARTITIONS

- 14 oz. or 22 oz. Vinyl Coated Nylon.
- Flame Resistant - Certified by California State Fire Marshall's office.
- Brass grommets on 12" centers. Top only. Consult factory for special requirements.
- Optional hook and loop fastener to join panels available.
- Thermowelded seams.
- Available in standard heights of 8', 10', 12', 14', 16' and 18'. Others upon request.

TRANSLUCENT Colors Available:

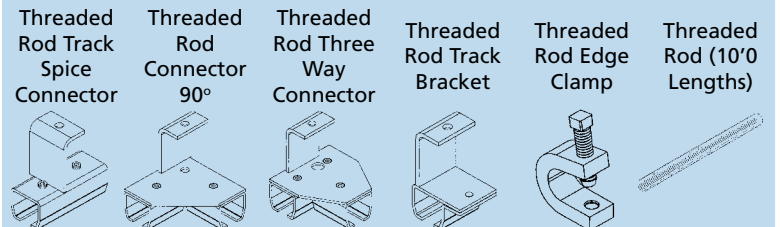

MESH Colors Available:

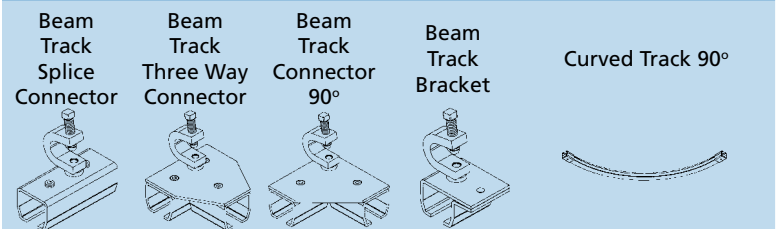

Basic Components

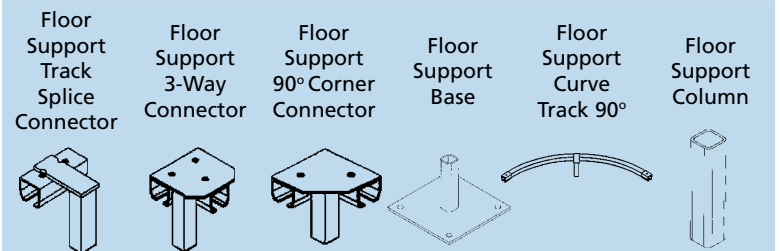

Threaded Rod Mounted System

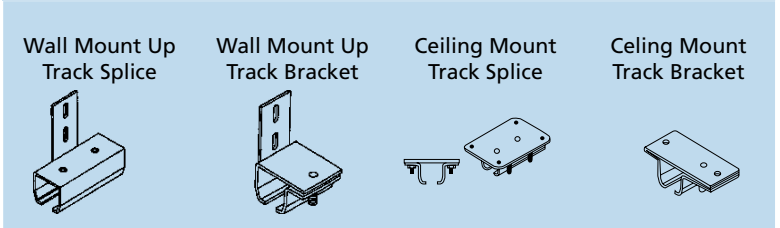

Beam Mounted System

Floor Support Mounted System

Wall Mounted System

TIPS ON TRANSLUCENT COLOR SELECTION:

Clear does not offer ultraviolet protection. Recommended for non-welding applications only.

Yellow allows most visible light to be transmitted.

Aztec Orange minimizes glare from high amperage welding arcs while allowing high visibility.

Green is the most glare resistant and visible light restrictive.
