

ALECO PAN RACK COVERS

- Help maintain freshness
- Preserve sanitary conditions during storage or transportation of food
- Prevents freezer burn and odor transfer
- Protect against dehydration
- Use for proofing and retarding
- Helps prevent burns from hot trays
- Easy to use – opens like a door

Aleco's pan rack covers are the most user-friendly on the market! All rack covers measure 23" wide x 28" deep x 64" high and are designed to fit racks measuring 21" wide x 26" deep x 69" high.

Each cover has one continuous heavy-duty zipper that runs up the left side and across the top. Unzipped, the transparent panel folds right and is secured in the open position with a hook and loop fastening system.

Each cover features a pen that will write on the clear panels to indicate contents, destination or expiration dates. Wipes clean with a moist towel.
